NEW DIGITAL COURSES

Digital skills for everyday life, learning, and work.

Impuls Rhein-Main e.V

As part of the “Integration durch Ausbildung (IdA)” and “Passgenau – Frauen in Arbeit und Ausbildung (PFiA)” programs, Impuls Rhein-Main e.V. is offering new courses covering computers, the internet, digital design, and artificial intelligence.

Basic Computer Skills Course

Essential Skills for Everyday Life and Independence

Learn essential computer functions and gain greater confidence in your digital everyday life.

Advanced Computer Course

Deepen and expand your digital skills

Deepen your existing computer skills and learn to use digital applications with increasing confidence and independence.

Internet Course

Safe and Independent on the Internet

Learn how to navigate the internet safely, find information, and use essential online services independently.

Canva Course

Create Digital Content Creatively, Clearly, and Independently

Create your own designs and learn how to organize information, learning materials, and digital content clearly and effectively.

Artificial Intelligence in Everyday Life

Understanding and Using Artificial Intelligence Effectively

Learn what Artificial Intelligence can do, how it can be used in everyday life, and what to consider when using it.

Requirements

The courses are aimed at anyone who would like to improve their digital skills and become more confident in using computers, the internet, and digital applications, and who meets the following requirements:

- Residence in Frankfurt am Main
- Age up to 27 years
- Refugee background

Digital applications are part of everyday life and open up new opportunities. In our courses, you will learn how to use computers, the internet, and digital tools confidently and independently in everyday life, for learning, and at work.
